RESUME

I am an enthusiastic and hard-working software and web developer with proficient programming, database and website development skills gained from my Higher Technical Certification in multi-platform applications development, my Computer Forensics university studies, voluntary work experience and personal projects development. In addition to my technical background, I can also offer strong communication skills developed through many years of working with people of all ages. Very positive attitude and good team worker who has excelled in previous employment through a caring and diplomatic attitude with clients. Added ability to adapt to changes in work and to work under pressure when deadlines need to be met.

EDUCATION AND QUALIFICATIONS

[2010-2012] - I.E.S. Leliadoura de Ribeira (Spain) - Higher Technical Certification in multi-platform applications development (A+).

[2013-2016] - Liverpool John Moores University (United Kingdom) - BSc (Hons) Computer Forensics School of Computing and Mathematical Sciences (FIRST).

WORK EXPERIENCE

[2012] - Mariño Informatica Ribeira (Ribeira, Spain) - Customer Services/Repairing – Work placement. I supported my manager teaching introduction to computing as well as introduction to web design. The company had a repairing department in which I spent time fixing computers (hardware replacement and software reinstalls).

SKILLS

PROGRAMMING

HTML5	★★★★★
CSS3	★★★★★
JavaScript	★★★★
Vue JS	★★★★
Angular2	★★★★
C#	★★★
SQL Server	★★★
ASP.NET	★★★
.NET Core	★★★
Umbraco CMS	★★★★
Bot Framework	★★★★
MS Office	★★★
Jira Atlassian	★★★★
Java	★★★
C	★★★★
VSTS	★★★★
Git	★★★★

IDES

Visual Studio	★★★★
VS Code	★★★★
Eclipse	★★★★

DESIGN

Photoshop	★★★
After Effects	★★★
Lightroom	★★★

FORENSICS

FTK	★★★★
WireShark	★★★

[2014-2016] - The Auto Network (Liverpool, United Kingdom) - Student work placement. General internal software and web maintenance. As a member of the Internal Business team I had to deal with a wide range of issues causing malfunction in our internal company systems to ensure their good health and functioning.

[2016-Now] - The Lead Agency (Liverpool, United Kingdom) - Full stack software and web developer. Developing and implementing new functionality for landing pages and chatbots, matching designs and requirements from the UX team, ensuring quality with unit and integration tests and applying TDD. General website maintenance, updates, and releases.

CERTIFICATES

[2016] - MSAB XRY Certification - Mobile forensic training. Industry recognized certificate, attesting to my ability to meet the requirements of a modern mobile forensic examiner or qualified investigator.

[2019] - Microsoft Exam 70-480 - Programming in HTML5 with JavaScript and CSS3. Implement and Manipulate Document Structures and Objects, implement Program Flow, access and Secure Data, use CSS3 in Applications.

LANGUAGES

Spanish - Native
English - Advanced
Portuguese - Intermediate/High
Italian - Basic

HOBBIES

Triathlon – I like to run, ride my bike, and swim long distances. I have completed an Ironman in Italy in 2019 (3,8Km swim, 180Km bike and 42Km run) and various triathlon events in UK over the past 2 years.

Photo and video editing – I enjoy taking awesome landscape pictures in raw format on my trips around the world with my DSLR camera and then playing around with the settings using Adobe Lightroom and Photoshop. Time flies when I sit on my computer tweaking my pictures!

PERSONAL

Responsible ✓
Eager to grow ✓
Attention to detail ✓
Good presence ✓
Positive work ethic ✓
Team work ✓
Work under pressure ✓
Embrace new technology ✓
Flexible ✓
Organized ✓
Eager to help ✓

Travelling – I love to visit uncommon places and not so touristic, preferably surrounded by nature. Just to mention a few, in the past two years I visited Azores Islands and Oporto in Portugal, Athens and Sifnos Island in Greece, Budapest in Hungary and Marrakech. Also my hometown in Spain, Cervia in Italy, Dublin and Frankfurt.
